

II. REMARKS

A. Regarding the specification

The specification is objected to because Figures 1 and 16 each show sequences that do not have the appropriate sequence identifiers in the description of figures in the specification. In response, Applicants have amended the description of these figures herein by adding these sequence identifiers.

III. CONCLUSION

All of the issues raised in the Office Action have been addressed and are believed to have been overcome. Indeed, the Action indicates that claims 127 and 129 are allowed and that the subject application is in condition for allowance except for the formal matters that have been corrected herein. Accordingly, Applicants respectfully request a Notice of Allowance to this effect.

Respectfully submitted,
